

## PRICE GUIDE

The following comprises a list of package options for Educational Psychology involvement from September 2023 onwards. Please note that each of the following packages include a *consultation meeting* (usually lasting for one hour) and a *full report* as a record of my involvement. The prices are weighted according to the time it will take me to conduct, analyse, feed back and document consultations and assessments.

The type of package selected will depend on the needs of the individual student. For example, where a student is struggling to make progress in literacy but there are no concerns regarding maths, Package 2 would generally be selected; where a student is struggling to cope with the demands of the classroom and/or may be having difficulty forming lasting friendships, Package 4 might be selected.

### Package 1:

A cognitive assessment, consultation and full report = £640

### Package 2:

A cognitive and literacy assessment, consultation and full report = £700

### Package 3:

A cognitive, literacy and maths assessment, consultation and full report = £750

### Package 4:

A full observation, consultation and full report = £590

### Other package options:

*It is possible to combine any of the above options and/or incorporate other forms of assessment such as those exploring children's social and emotional wellbeing in greater depth. These can be tailored to the individual needs of the child and will then be costed according to the time required to complete them, at a pre-agreed price. Examples include:*

- A brief classroom observation can be added on to any of the above packages for an additional cost of £50
- A detailed consultation meeting with no observation required = £520
- A play-based assessment with short observation for early years children = £620

N.B. Any additional pre-agreed travel expenses for journeys outside a 60-minute radius will be added to the above costs, based on mileage and time.
